

THE LAST FIVE YEARS · THE SECOND SCREEN

The Cue Bible

build-2026-09-18 · line-by-line

73 cues · 14 songs · generated from the live show build, so this document cannot drift from what the phones actually do

THE STANDING RULE: the phone behaves exactly like a real phone. Tapping a notification IS the unlock — the app opens directly, no home screen. Inboxes and message lists load whole the instant the app opens, and a full life continues past the bottom edge of the glass. Only what would genuinely arrive right now — a text, a notification, new mail — appears live, and new mail lands at the top. Anything that violates this is a bug, even if it would make a nice theatrical beat.

How to read each entry: the header gives the cue ID, which screen, whose phone, the app, and the musical anchor. ON SCREEN is the complete content, verbatim and untruncated. PLAYS covers mechanics the engine performs on its own — navigation, self-timed animation, synthesized sound. PHONES gives the state after the cue when it changed. Gold notes carry dramaturgy, holds, and open director choices.

1 · Still Hurting CATHY SINGS · 7 FIRES

COLD OPEN. Her phone is the first actor on stage, and the whole prologue plays from ONE GO: the Memories notification, the tap, four years in four cards. Black on the first bar. At the m.58 interlude she picks it up and sends her text — one GO, plays out on its own. Then, on her lines: Delivered turns to READ at 9:44, his typing bubble rises, and it stops. The thread stays up to the cutoff.

1.1 SR · CATHY · Facebook Memories — *PROLOGUE* — *the first note of the wedding waltz. SHE is discovered on her phone.*

AUTO-PLAYS from this one GO (~25 s). Her phone, lit — JUNE 2026, the morning after. Facebook pushes a Memories notification; she gives in and taps it; four cards scroll up one at a time — 2025 Ohio (the card he is not in), 2024 the wedding, 2023 the ring, 2022 the couch. Nothing else to fire until the first bar.
